

Dear Server,

We know how difficult work can be for servers in their senior years. The energy drain of being constantly switched on and off, the struggle to cope with an ever-increasing number of users, and the problems caused by your occasional memory loss only become exacerbated with age. It's no wonder you're increasingly prone to crashing. You need a rest.

That's why we'd love you to join us here at the Shutdown Server Retirement Village: a place where servers can power down in peace. We've enclosed a pamphlet to tell you more about our facilities and reassure you that retiring with us is the best option for you, your employer and the environment.

We hope we'll be seeing you soon (whenever you're ready, simply call **0844 556 2000** or email **enquiries@connect.co.uk** and your free chauffeur to Shutdown will come and collect you).

Kind regards,

**Director**  
**Shutdown Server Retirement Village**
